

Netwoven unveils Govern 365 to enable organizations to implement effective governance policies in Office 365

MILPITAS, CA – May 22, 2018 – Netwoven, Inc. a Microsoft Gold partner and business solutions provider has recently rolled out its new product, Govern 365, to enable organizations to more effectively govern their Office 365 tenants.

Microsoft® Office 365 is one of the most popular cloud-based productivity software solutions. As per Microsoft, [85% of Fortune 500 companies](#) are leveraging Office 365 to provide greater collaboration, productivity, & intelligence to transform their business outcomes. Once deployed, however, organizations need to place a proper governance plan to strike the right balance between user empowerment and administrative control. Netwoven’s Govern 365 automates the implementation of governance policies and helps organizations achieve the most out of their Office 365 investments.

With Govern 365, users can easily implement governance processes, prevent Office 365 group and site sprawl, automatically dispose of unused containers and effectively provision sites with appropriate security and compliance policies. As a result, organizations can

- Enhance team collaboration and productivity
- Reduce compliance risk
- Increase ROI of Office 365

“Due to the rapid adoption of Office 365, including Microsoft’s SharePoint, Groups, and Teams, it’s more important than ever for organizations to have effective centralized governance. Users must be able to quickly and safely provision new locations to collaborate without IT losing control of the environment” – said a Microsoft Modern Workplace Technical Specialist. Users can take a test drive of the product by choosing a [free trial](#) option.

For additional information about Govern 365, interested users may reach out via email at info@govern365.com or by phone at (877) 638-9683
